Inlets that have been installed in 1980 -90 are in disrepair and require huge amount of the public works time and resources.

Operations:

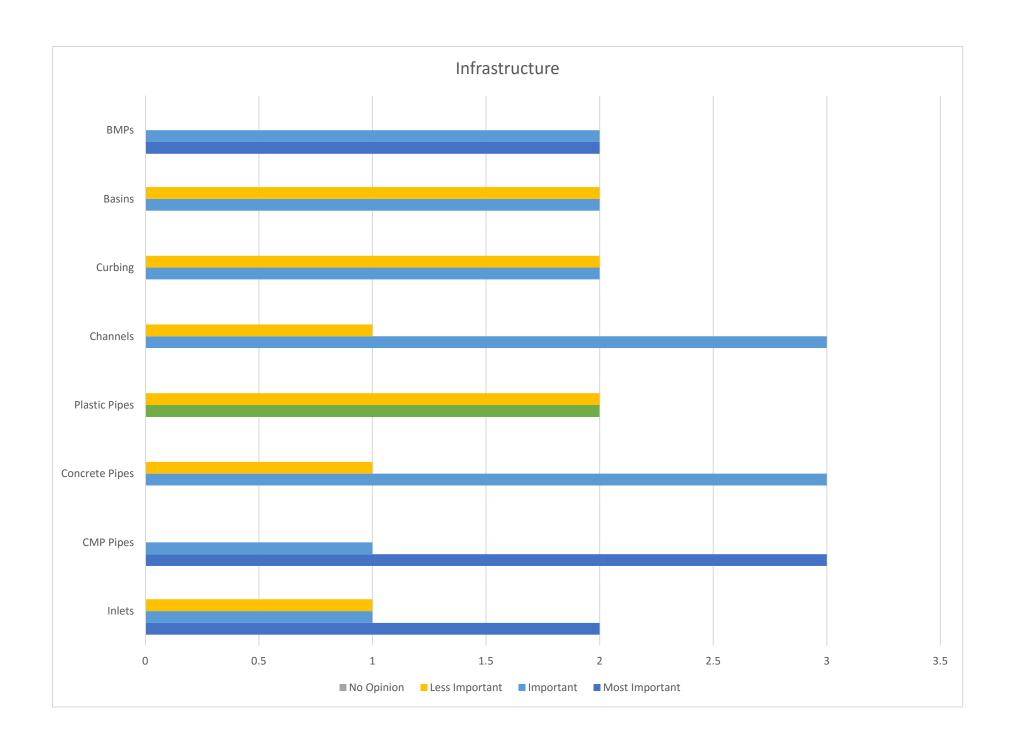

Investment:

We need a good camera truck and a good flush truck so we can get the camera down through the 15-18 inch gal. culverts. This would be HUGE!!!!

Regulatory:

Issues:

I filled out this survey (or one like it) months ago. Why another???
