Sustainability: A Cornerstone of Ferguson

Completion of the New Public Works Facility & Green Infrastructure Policy

Ferguson Township is committed to reducing its impact on the environment and protecting our community. Elected officials and staff have been leading initiatives and projects with this view in mind.

First, we would like to proudly announce that the new Public Works Facility is now complete! The 3-bay facility has been designed to meet Leadership in Energy and Environmental Design (LEED) standards. The use of this building will offer the Township long-term savings and reduce the Township's carbon footprint.

The building utilizes Variable Refrigerant Flow (VRF) technology to regulate temperature in the building. This HVAC system can heat and cool different occupied zones or rooms within the building at the same time. The garage area does not use the VRF system but regulates its temperature through radiant floor heating supplied by hot water tubes. In addition, the roof was designed using white rubber to reflect the summer heat, thereby using less energy to keep the building cool.

A Green Cleaning policy has been adopted for the building. This policy requires that materials used to clean the facility are safe for both human health and environmentally friendly. Natural cleaners will be used rather than volatile chemical cleaners. Hard-surface cleaners, cleaning and degreasing compounds will be composed of renewable resources, such as biobased solvents from citrus, seed, vegetable, and pine oils. Manual-powered equipment and cleaning strategies will be used whenever possible to reduce the energy and water used by powered equipment and typical cleaning strategies. Both chemical and water usage will be tracked to ensure enforcement of this policy.

Additionally, the recently adopted Sustainable Purchasing policy will require the purchase for use of recycled materials such as paper and cardboard. The goal of this policy is to reduce waste and minimize the landfill usage and protect environmental health. For example, demolition materials used during construction were recycled. Some wall coverings inside the building were made from locally sourced trees that were sawed into boards during Ag Progress Days.

Even the landscaping for the building has been designed with sustainability in mind. Bioswales, which are designed to reduce stormwater runoff and pollution, have been implemented around the facility. These bioswales are filled with a low-mow plant mix to capture stormwater runoff.

Data regarding the energy consumption of the building will be displayed on monitors in the entrance of the building. We are excited for residents to see the building the next time they are driving by! Be sure to check out pictures of the building at the end of this Newsletter!

Manager's Blog: "Local Gov't 101 – The Council/Manager Form of Government"

By David Pribulka, Township Manager

Like most of us, I sometimes assume that people understand my profession and often must remind myself that the only reason I understand it is because I live it each day. One of the primary goals of this blog and our community outreach and engagement initiatives has been to bring local government to everyone's doorstep. It is, after all, where the rubber hits the road. In many ways we are insulated at the local level from the issues that face our state and federal officials. In other ways, they are insulated from our world. I truly love the profession of municipal management and the interactions I get to have daily with residents and dedicated volunteers whose only interest is the betterment of our community. In a very real way, the

Council/Manager (CM) form of government ensures the purity of that service.

At its most basic level, the CM form of government separates the establishment of public policy from its administration. The municipal manager, who serves at the pleasure of the elected body, is given substantial autonomy as Chief Administrative Officer in the day-to-day affairs of the municipality. This includes management of staff, budget oversight, intergovernmental affairs, and more. Policymaking such as the enactment of laws and resolutions, contract awards, levying of taxes and assessments, debt issuance, and more resides solely with the elected officials. This provides a system of checks and balances to help deter corruption and establish continuity of operations as boards change and new administrations take shape.

Since beginning my career in Ferguson Township in 2012, I have had the privilege of learning from some of the most dedicated and ethical men and women in municipal management. I especially admired my predecessor and mentor, Mark Kunkle, in his methodical and steadfast commitment to our profession. He was uncompromising in his adherence to the ethical tenets of the International City/County Management Association – a consortium of municipal managers over 100 years old. It was as clear to me then as it is now that the success and failure of CM forms of government relied inextricably on both sides respecting their roles and boundaries. While I commonly counsel the Board of Supervisors on the implications of their policy decisions, I always enforce the decisions of the elected officials regardless of whether they follow my recommendations. Similarly, the Board respects my role and does not intervene in matters of administration or personnel management. The integrity of this relationship ensures that policies are set by those directly responsible to the electors.

While I am admittedly bias, the CM form of government is the cornerstone of ethical and transparent governance. I encourage each of you to read the Ferguson Township Home Rule Charter, which has laid the foundation for our community since its enactment in 1976. I also invite you to become involved in your community by volunteering to serve on one of our authorities, boards, and commissions, or by simply following us on social and print media so you can stay informed and provide your feedback. Thank you for being a valuable part of what makes our community a special place to live, work, study, and visit.

Mask Up, State College Banners in Ferguson Township

Ferguson Township collaborated with a community-wide committee, lead by Penn State and other municipalities, for uniform and consistent signage. The Mask Up, State College banners are visible within the State College Borough, Penn State University and Patton Township communities.

These banners are designed to serve as a reminder to follow guidelines such as masking, physically distancing, and washing hands to prevent the spread of COVID-19 in our community.

Banners are located on Pine Grove Road, Havershire Boulevard, Corl Street, Old Gatesburg Road, and The Yards on Blue Course Drive. In addition to these banners, vinyl stickers are located at the CATA Bus Shelters in Ferguson Township with similar messaging.

General Township News

The Pine Grove Mills Small Area Plan Advisory Committee Continues to Enhance the Vitality of the Village

In 2020, the Township's newest standing committee, the Pine Grove Mills Small Area Plan Advisory Committee, was formed to implement the vision and action steps laid out in the Small Area Plan (SAP). Since then, the Committee has been meeting regularly to begin to identify a pathway toward realizing the goals of the SAP while being considerate of the resource constraints and other obstacles that will need to be overcome along the way.

A subcommittee convened to categorize the action steps into broader classifications including economic development; land use and regulatory; community engagement and events; history and heritage; and public infrastructure and multimodal transportation. These broader categories will lay the framework for implementation, and a member of the Committee will be assigned as a "champion" of each, charged with ensuring the action steps remain on the radar of the Committee and staff. The SAP is ambitious and will be more of a marathon than a sprint to the finish line. However, as the famous Chinese proverb goes, "a journey of a thousand miles begins with a single step," the Pine Grove Mills Small Area Plan Advisory Committee has begun this journey with enthusiasm and is poised to revitalize the community and enhance the quality of life for all who visit and live in the Village.

Please visit the Committee's website at www.twp.ferguson.pa.us/pine-grove-mills-small-area-plan-advisory-committee to learn more about their progress and to find information on upcoming meetings.

Take Advantage of the Spring & Summer with Bicycling

Warmer weather is on the way and it's time to enjoy the outdoors! This year, Ferguson Township has partnered with the Centre Region Planning Agency to promote biking in the Centre Region! Ferguson Township is home to several miles of bike paths that are great to take in the scenic views or just get some great exercise!

Want to learn more about Ferguson Township biking? Ferguson Township will be hosting a Virtual Bike Chat on **May 20, 2021 at 12:30 PM** to update residents on 2021 Centre Region bike events, bike safety, and suggested trails.

Visit crcog.net/bikes to learn more about bicycling in the Centre Region

Tudek Park Participating in Centre Gives

The Tom Tudek Memorial Park is participating in the Centre County's largest online giving event, Centre Gives. Hosted by the Centre Foundation, this 36-hour online giving event runs from May 11 at 9 am until May 12 at 9 pm.

Donations through the Centre Gives event qualify Tudek Park and other local nonprofits for a larger share of the \$200,000 stretch pool and additional prize money. Donations to the Tom Tudek Memorial Park Trust will help ensure the preservation of this place of extraordinary beauty, which features 30 acres of active recreation area and 61.5 acres of woodland.

Be sure to mark your calendars and help support this beautiful park nestled in our community!

Administration News

\$250,000 Grant Awarded to Suburban Park

Ferguson Township received a grant match in the amount of \$250,000 from the Department of Conservation and Natural Resources (DCNR) Community Conservation Partnerships Program (C2P2) for Suburban Park - Phase 1 project.

Through a participatory process with engaged neighborhood residents, YSM Landscape Architects, Township staff and Centre Region Parks and Recreation Agency staff, identified park needs for Suburban Park based on findings from the planning and public participation process. Phase 1 will prioritize safety with drainage improvements, enhance natural resources for environmental benefits as well as expand on outdoor recreational opportunities for this local neighborhood park.

The scope of work will consist of extending the park trail system with an ADA accessible route from parking stall to amenities and will eventually serve to encircle the main portion of the park. Also part of Suburban Park - Phase 1 park improvements, additional amenities will be provided including horseshoe pits. The project also includes trash/recycle receptacles, benches and an entry plaza with kiosk and bike rack. Site preparation includes removal of basketball court, bridge, and culvert beneath ball field requires replacing and relocating outfield fencing.

Ferguson Township would like to thank all those who were involved in developing the Master Plan. This award will be used to continue developing the Suburban Park into an invaluable community asset.

Ferguson Township to Host Community Resilience Building Workshop

Ferguson Township was invited to participate the Community Resilience Building Program offered through a collaborative partnership between The Nature Conservancy, Sustainable Pittsburgh, and the Pennsylvania Municipal League. As part of this program, a core team comprised of Township staff, regional members of the Council of Governments and the Ferguson Township Climate Action Committee will compile existing maps and online tools, natural hazard mitigation plans, photos, historical information, damage assessments and claims prior to holding the Community Resilience Building Workshop.

This Workshop employs a unique community-driven process to identify top hazards, current challenges, strengths, and priority actions to improve their community's resilience to all natural and climate-related hazards today, and in the future. The Township will use this insight to expand on Ferguson's inter-department directives to meet identified resilience and sustainability targets. The takeaways from this workshop will foster collaboration with and among community stakeholders that will advance the education, planning and ultimately implementation of priority actions.

The Workshop will be held on April 28, 2021. Please contact Assistant Manager, Centrice Martin with questions or learn more at communityresiliencebuilding.com.

Ferguson Township Expanding Internship Program

Ferguson Township has expanded its internship program and has been looking for undergraduate and graduate students!

As part of the search, Ferguson Township attended the Penn State Impact Career Fair in March. Due to COVID-19, this event was held in a virtual format. Staff was able to display its opportunities over the web-based event. The Township engaged students regarding its current internship positions: Parks & Recreation Assistant and Community Engagement & Communications Assistant. These positions have been created at the Township to assist departments in working on projects to improve infrastructure and community outreach respectively.

As part of this, Ferguson Township will find students through Penn State University's Work Study Program. This initiative allows Ferguson Township to work directly with Penn State to be paired with qualified students who want to get involved with local government and community outreach.

Staff is currently reviewing applicants received from the Impact Fair. Stay tuned to see our new interns!

Finance & Tax News

Using Laserfiche Forms in Ferguson Township

Ferguson Township has been making strides with Laserfiche, an online form software, into its internal operations. Departments can begin making requests for billing and invoices making this now paperless process much more efficient. Requesting checks will now only take a few hours.

The Township is working with the software company to expand this form usage out to the public for the various applications located on our website. This will save residents time and energy by being able to pay and fill out forms from the comfort of their own home.

2021 Operating Budget Adopted!

The Ferguson Township Board of Supervisors adopted the 2021 Operating Budget during their regular meeting on December 14, 2020. Three Special Meetings were held by the Board during the month of November where changes were made to the Drafted 2021 Comprehensive Budget. The adopted Budget has no increase in tax rates for Ferguson Township residents in 2021.

View the budget by visitng our website: [Government » Finance & Tax » 2021 Budget](#)

Making Payments Online Through MunicIPAY

Ferguson Township has implemented a new way for residents to pay fines & fees online with MunicIPAY.

Now residents can make payments from the comfort of their home or office by using our new online payment service. Currently, residents can make payments for sign permits, parking permits, and parking tickets through the portal. The Township will be expanding the available options in the future.

MunicIPAY accepts American Express, MasterCard, Discover and Visa. Please note that there is a per transaction service fee of 2.65% or \$3.00 minimum that will be charged by the payment processing company for this service.

Use this new feature by visiting our website: [Services » Make A Payment](#)

Planning & Zoning News

Protecting Ferguson Township's Ecosystem: Heritage and Significant Trees

During their Regular Meeting on January 18, the Ferguson Township Board of Supervisors adopted an ordinance amending the Code of Ordinances to establish a new section, Heritage and Significant Trees. This ordinance allows residents to nominate trees in Ferguson Township to become a "Significant" or "Heritage" tree and nomination results in protection for years to come.

A Heritage Tree is any tree or stand of trees located on public or private property, of landmark importance due to age, size, species horticultural quality or historic importance that has a DBH greater than 36 inches or an age greater than 75 years. This designation allows the Township to take over the maintenance of the tree with methods such as pest control and pruning. Once a tree is nominated and inspected by the Township's Arborist, the tree will be presented to the Tree Commission for recommendation to the Board of Supervisors for approval. The Board of Supervisors can designate up to two heritage trees per year.

A Significant Tree is considered any tree or stand of trees that is of landmark importance due to age, size, species, horticultural quality or historic importance. These types of trees can be designated by the Tree Commission and there is no limit on the amount designated per year.

Protecting these trees is important not only for preserving the historical integrity of the Township but also to protect the Township's ecosystem. These trees are home to many different species, provide shade, and even assist with Stormwater Management in the Township.

Planning & Zoning News

Workforce Housing Ordinance Adopted

During their first regular meeting of the year, the Ferguson Township Board of Supervisors Adopted the Workforce Housing Ordinance.

The Workforce Housing Ordinance applies to the following developments within the Traditional Town Development (TTD) or Terraced Streetscape (TS) Zoning Districts:

- Ten or more residential dwelling units;
- Renovation of a residential structure that results in ten or more additional residential dwelling units within five years; and
- Conversion of a nonresidential property to a residential property that results in ten or more residential dwelling units within five years.

This expands upon the legacy workforce program by allowing for rentals or owner-occupied units; and provides workforce housing units to be built on-site, built off-site, and/or paid through fee-in-lieu.

Adoption of Tree Preservation Ordinance

The Public Works and Planning & Zoning Departments have drafted an amendment to Chapter 22, Subdivision and Land Development to establish a new part, Tree Preservation and Protection. The intent of this chapter is to encourage the protection of trees through sound land use and tree management practices. This chapter will preserve, protect and maintain existing trees in Ferguson Township. This section will strive to increase the overall tree canopy and understory with native species and improve tree and ecosystem health on both public and private lands.

This ordinance will only apply to properties that submit a land development plan, subdivision plan of 4 parcels and greater, and grading permits. The ordinance will require applicants to preserve 20% of the tree canopy on site and provide incentives to applicants to maintain and plant new trees to increase the overall tree canopy. These incentives include relief from parking and buffer planting requirements.

Spring Brings Grass and Weeds

Spring is approaching and with it comes vegetation and lawn care. Our Ordinance Officer would like to remind property owners that they are responsible for cutting all turf grass, weeds or other vegetation on your property. If grass, weeds, or vegetation exceeds six inches in height, emits any unpleasant or noxious odor, or conceals any filthy deposit, the property owner is in violation of this ordinance. Please note that this ordinance applies to the R1 Residential District.

If there is a violation, the property will receive a courtesy notice. The issue must be corrected within 48 hours or the property will receive a warning. Failure to correct the warning within 24 hours will result in violations and appropriate fines. Continued offenses can lead to legal action.

Thank you for doing your part to keep the Township beautiful. You can reach the Township's Ordinance Officer at (814) 238-4651 or at ordinance@twp.ferguson.pa.us.

Police News

Safety for the Spring

As we enter spring, the Ferguson Township Police Department would like to remind residents of ways we can keep our community safe.

Drivers: be sure to follow the speed limit and use caution at stop signs. Pedestrians and bicyclists are especially out and about this time of year and with Penn State gearing up to resume in the fall, there will be even more. If you are going to pass a bike, give at least a 4 foot cushion between your car and the bicyclist. Drive like it's the street you live on!

Bicyclists: be vigilant and follow the rules of the road. Laws like stopping at stop signs, obeying traffic signals & riding on the right side of the road do not just apply to motor vehicles. Remember that anyone under the age of 12 must wear a helmet when riding a bicycle. If you do bike on the road, please use hand signals:

- To signal a left turn, extend the left hand and arm horizontally.
- To signal a right turn, extend the right hand and arm horizontally, or extend your left hand and arm upward.
- To signal a stop or decrease in speed, extend the left hand and arm downward.

Pedestrians: walk or jog against traffic. The summer is a great time to get some exercise and going against traffic is the best way for you to stay vigilant. Always remember to look both ways when crossing the street and use the sidewalks when present.

The purpose of all these rules is to help keep our community safe. We want to continue building Ferguson into the best community it can be and we can't do it without you. Love & respect your fellow neighbors and thank you to those who continue to make Ferguson Township a great place to live and work!

Read the Rules! Safety at Tudek Dog Park

Tom Tudek Park is divided into two sides: Large Dogs (30 lbs. and over) and Small Dogs (under 30 lbs.).

If you're planning a visit, please keep in mind that not all dogs are suited for dog-park play. If a dog has serious behavioral problems in relation to other dogs or humans, you might want to think twice about a dog park. Dogs with these types of issues should be carefully socialized in environments that are more controlled. Your dog should be friendly and outgoing, without being overbearing, obnoxious, or a bully. Those who are fearful, aggressive, or reactive are not appropriate for dog parks. If your dog injures another dog or human, you may be responsible for those injuries. To report danger, call 911. To report other unsafe behavior, call the Ferguson Township Ordinance Enforcement Officer at (814) 237-1172.

If you're a new park user, visit the park without your dog to observe the space and become familiar with the rules. Arrange to take your dog during non-peak hours to allow both you and the dog to get acquainted to the space, without the distraction of other dogs. Basic good manners are a prerequisite. Your dog should also respond to your basic cues so that you can control and prevent them from harassing others. The rules are also posted at each entrance to the dog areas.

You Are Not Alone: Resources for Mental Health

Nearly one in five U.S. adults live with a mental illness. Mental illnesses include many different conditions that vary in degree of severity, ranging from mild to moderate to severe. On average, in the U.S., approximately 132 people die from suicide every day. In Pennsylvania, approximately 2,000 people die from suicide every year.

It is important to know the warning signs of someone who may be thinking of suicide:

- Isolating from friends and family;
- Increased use of alcohol or drugs;
- Withdrawing from activities;
- Giving away prized possessions;
- Sleeping too little or too much;
- Visiting or calling people to say goodbye;
- Increased aggression and many others.

You are not alone, and help is out there. If you or a loved one are experiencing any of these symptoms, please visit our Mental Health Resource page at www.twp.ferguson.pa.us/police-department/pages/resources-mental-health.

Protect Yourself From Scams

Phone and cyber crimes have been on the rise in recent years, especially social security and unemployment scams. The Ferguson Township Police Department has received multiple calls from residents regarding scams with gift cards. Here are a couple of tips from our Police Department to better protect yourself:

- Do not pay anyone in gift cards such as iTunes cards;
- Do not answer calls from unknown numbers or hang up immediately;
- Do not respond to any questions, especially "Yes" or "No";
- Every company or government agency will reach out via mail first;
- NEVER give out personally identifiable information (PII) such as account numbers, social security numbers, email addresses, or driver's license numbers.

If you believe you have been targeted by a scammer, please contact the Ferguson Township Police Department at (814) 238-4651 or police@twp.ferguson.pa.us

Public Works News

Grant for New Hook Truck Awarded to Ferguson Township

A new vehicle is joining the Ferguson Township Public Works Fleet!

This year, Ferguson Township was awarded \$272,800 for our Leaf Waste Collection Program from the Department of Environmental Protection to purchase a "Hook" Truck. This versatile truck will be used for Brush Collection in the spring and summer, for Leaf Collection in the fall, and de-icing operations in the winter.

The Township's new truck will arrive in time for Leaf Collection in the fall of 2021.

Keep an eye out for our brand-new truck coming to a street near you next year!

Example of a Hook Truck

Public Works News

Thank You to Our Public Works Crew!

As heavy snow is coming down or leaves cover the ground, our Public Works Crew is out, rain or shine, to keep the Township running.

They are an unspoken necessity for life here in the Township. Our crew has a vast amount of work they perform in Ferguson: from managing our stormwater infrastructure, to picking up brush & leaf, and plowing the roads during a winter storm.

This winter season especially had a number of snow events and received over ten inches in some of those events. Our crew follows the most up-to-date weather forecasts and plans accordingly. Before a storm, our crew begin by pretreating roadways using a 'salt brine' before a potential snowstorm. This approach allows for easier snow removal. Our crew strives to have the main roads plowed before your morning commute to ensure the safety of everyone in the Township.

The next time you are out and about in the Township and you see our yellow trucks, remember what a huge role our Public Works crew plays in life here in the Township. We thank you!

Tree Canopy Survey Results!

In 2020, Ferguson Township completed its first ever Tree Canopy Survey taken by the Township's consultant, SavATree. The survey used both aerial imagery and 3-D laser scanning data to capture the percentage of land cover in the Township that is covered by tree canopy: the layer of leaves, branches, and stems that provide tree coverage of the ground when viewed from above. When integrated with other data, such as land use or demographic variables, this assessment can provide vital information to help governments and residents chart a greener future. The survey assessed the tree canopy for Ferguson from 2008 to 2019.

Ferguson's tree canopy increased from 2008 to 2019. In fact, the net amount of tree canopy area gained is the equivalent of 380 football fields! This increase is the opposite of national trends in which most communities are losing tree canopy.

Urbanization is the driving factor behind the greatest increases, with trees planted in the new developments prior to 2008 exhibiting substantial growth. All Parks in Ferguson Township gained canopy from 2008 to 2019. Tudek Butterfly Garden and Greenbriar Saybrook Park had the most absolute gain of 22.5% and 14.1%, respectively.

"Ferguson Township continues to follow Best Management Practices to ensure the Township's urban forest provides benefits to all residents", says Township Arborist, Lance King. "As the Township has grown, so has its tree canopy. Looking to the future we want to be certain that this trend continues".

SavATree suggests that Ferguson Township should be planting new trees in areas where tree canopy is low and to reassess the canopy in 3 to 5 years. One of the most important factors in maintaining tree canopy is you! Community education is crucial if tree canopy is to be maintained over time. Residents that are knowledgeable about the value and services trees provide will help the Township stay green for years to come.

Help us to keep Ferguson Township green! The full Tree Canopy Assessment can be viewed at www.twp.ferguson.pa.us/public-works/pages/trees-ferguson-township

Public Works News

Stormwater Management Utility Fee Ordinance Adopted

During their regular meeting, the Board of Supervisors adopted the Stormwater Management Utility Fee Ordinance. This ordinance establishes a stormwater utility fee that allocates stormwater management program costs to property owners based on impervious area. The policy will not become effective until January 1, 2022. The utility fee will be sent out in March on residents' tax bills.

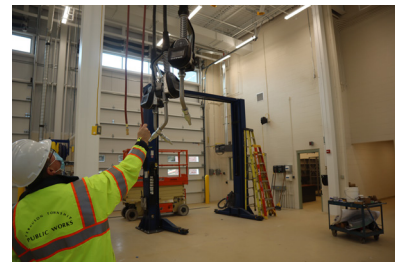

Half of the Township's pipes are corrugated metal pipe that has met or exceeded its projected life and is deteriorating. This policy will not only help to improve water quality and our environment for future generations, but also help protect residents and private property from damage due to flooding. The example on the right is from a deteriorated culvert on Sleepy Hollow Drive. If these stormwater pipes are not replaced, they can lead to road collapses.

Property owners can reduce their stormwater fee by receiving "credits" if they have implemented practices that reduce the impact of stormwater on the publicly-managed system or reduce their impervious area. Some of these credits include adopting an inlet and establishing Best Management Practices for Water Quality.

Learn more about the Stormwater Ordinance by visiting our 'Stormwater' tab on our website.
