Property Owner Address

Re: Aerial Spraying of Spongy Moth (formerly Gypsy Moth) Parcel #

Dear Property Owner:

This letter is a follow up to Ferguson Township's intention to control Spongy Moth in your area and to notify you of the requested spray exclusion buffers that have been submitted in your area.

At this time, your property resides within a requested 500-foot spray exclusion buffer area and will not be sprayed this spring. Property owners who wish to personally arrange to have their properties treated by a private contractor are eligible for reimbursement up to \$62.00/acre which is equal to the cost the Township would have spent for aerial spraying.

An application for reimbursement form will need to be completed and a paid receipt must be provided to the Township to be eligible for reimbursement. The form is available for download at www.twp.ferguson.pa.us/spongymoth/reimbursementform or contact the Township to have one sent to you.

Additional information may be obtained at www.twp.ferguson.pa.us/spongymoth or contact the Township Arborist at 814-238-4651 or email Arborist@twp.ferguson.pa.us.

Sincerely,

Centrice Martin
Township Manager
